

Russian LPG

330+ pages and nearly 450 graphs and tables. All key data in graphs are numerical.

The report presents detailed analysis of all key aspects of the LPG industry in Russia in the last six years. The report provides unmatched data intensity and breadth of issues covered. The report features:

- Most recent information – the complete set of data for 2011
- Liquefied Petroleum Gases production by source of origin
- Export movements and imports by country
- Export taxation and LPG economics
- Forecast of industry development
- Profiles of the LPG producers, including production for the last six years by fraction and deliveries to the domestic and export markets in 2009-2011

RUSSIAN LIQUEFIED PETROLEUM GAS

CONTENT

1	Introduction	17
2	LPG industry structure	19
3	LPG balance in Russia	23
4	LPG potential by source and resource disposition	27
4.1	Associated Petroleum Gas and crude	33
4.2	Natural Gas and Condensate.....	46
4.3	Refinery Gases.....	54
5	LPG production by key producer group	63
5.1	Gas Processing Plants	70
5.2	Refineries.....	74
5.3	Petrochemical Plants.....	77
6	LPG production by region	80
6.1	LPG production in Volga-Urals region	82
6.2	LPG production in West Siberia (KhMAD and YaNAD).....	84
6.3	LPG production in Central European Russia.....	90
6.4	LPG production in other regions of Russia	92
7	LPG domestic consumption.....	94
7.1	LPG as feedstock to petrochemical	98
	7.1.1 Supply to large Ethylene and Propylene facilities	99
	7.1.2 Supply to synthetic rubber plants	105
7.2	LPG for residential and commercial use.....	107
7.3	Autogas.....	110
8	LPG export	114
8.1	Natural Gas Liquids export.....	114

8.2	LPG export volumes	116
8.3	LPG export by key producers	119
8.4	LPG export to key countries	124
8.5	LPG export corridors	127
9	LPG handling infrastructure	132
9.1	Railway	132
9.2	Baltic Sea Ports	136
9.2.1	Freeport of Riga	137
9.2.2	Sea Port of Klaipeda	137
9.2.3	Kalinigrad Sea Port	138
9.2.4	Port of Tallinn	139
9.2.5	Port of Ust-Luga (planned LPG handling capacities)	140
9.3	Black Sea Ports	143
9.3.1	Odessa	146
9.3.2	Ilichevsk	148
9.3.3	Kerch	149
9.3.4	Temryuk Port	150
9.3.5	Taman (under construction)	151
9.4	Domestic infrastructure and storage facilities	152
10	Key regulation regarding LPG	157
10.1	Regulation of Associated Petroleum Gas Utilization	157
10.2	“Balance supplies” history	159
10.3	LPG transport and storage	160
10.4	LPG export tariffs and export regulation history	161
11	LPG economics	163
11.1	LPG prices overview	163
11.2	LPG feedstock prices	166
11.3	LPG processing costs	167
11.4	LPG transportation and other delivery costs to domestic market	168
11.5	LPG export economics	170
12	LPG supply/demand forecast	173
12.1	LPG production forecast by source	173
12.1.1	Associated Petroleum Gas	173
12.1.2	Natural gas	176
12.1.3	Refineries	179
12.2	Demand forecast	181
12.2.1	LPG as feedstock to petrochemical	181
12.2.2	LPG for residential and commercial use	183
12.3	Export forecast	183
12.4	Potential change in regulation and impact on the markets	184
13	LPG Production Companies profiles	186
13.1	SIBUR	186
13.1.1	SiburTyumenGaz JSC	193
13.1.2	Gubkinsky GPP	195
13.1.3	Yuzhno-Balyksky GPP	196
13.1.4	Nyagangazpererabotka LLC	198
13.1.5	Noyabrsky GPC (Gas Processing Complex)	199
13.1.6	Compressor Stations	201

13.1.7	Yuragazpererabotka LLC - joint venture with TNK-BP	202
13.1.8	Tobolsk-Neftekhim PP	204
13.1.9	Sibur – Khimprom Petrochemical Plant	208
13.1.10	Uralorgsyntez Petrochemical Plant.....	213
13.1.11	SIBUR Vostok LLC	218
13.1.12	Yuzhno-Priobsky Gas Processing Plant LLC - joint venture with Gazprom Neft	219
13.2	OAo Gazprom.....	219
13.2.1	Gazprompererabotka (Gazprom processing or refining)	220
13.2.2	Sosnogorsk GPP (Gazprompererabotka).....	221
13.2.3	Urengoi Condensate Stabilization Unit (Gazprompererabotka)	225
13.2.4	Surgut Condensate Stabilization Plant (Gazprompererabotka)	226
13.2.5	Gazprom dobycha Yamburg (Gazprompererabotka).....	230
13.2.6	Astrakhan Gas Processing Plant	232
13.2.7	Orenburg GPP and Helium Plant.....	236
13.2.8	Gazprom neft Omsk Refinery.....	242
13.2.9	Gazpromneft - Moscow Refinery	246
13.3	LUKOIL	249
13.3.1	Korobkovsky Gas-processing Plant.....	251
13.3.2	Permneftegazpererabotka GPP	253
13.3.3	Lokosovsky Gas-processing Plant.....	258
13.3.4	Usinsky Gas-processing Plant	259
13.3.5	Volgogradneftepererabotka (Volgograd Refinery).....	261
13.4	NOVATEK-Purovsky CSP	265
13.5	AFK Sistema.....	270
13.5.1	Ufa Refineries Cluster	270
13.5.2	Novo-Ufimsky Refinery	272
13.5.3	Ufaneftekhim.....	274
13.5.4	Ufa Refinery	277
13.5.5	Shkapovo GPP.....	279
13.5.6	Tuimazinsky GPP.....	281

ABBREVIATIONS, FREQUENTLY USED IN THE REPORT

FSU	Former Soviet Union countries
NGL	Natural gas liquids. Liquids received in the process of gas production. Includes condensate, gas naphtha, LPG
LPG	Liquefied Petroleum Gas
WFLH	Wide Fraction of Light Hydrocarbons – this is direct translation of accepted in Russia term that defines a mixture of hydrocarbons C3+ received in the process of stabilization of gas condensate or gas naphtha
GPP	Gas Processing Plant
CSP	Condensate Stabilization Plant
PP	Petrochemical Plant
cm	Cubic Meter (35 cubic feet)
tcm	Thousand Cubic Meters
mcm	Million Cubic Meters
bcm	Billion Cubic Meters (35 billion cubic feet)
tt	Thousand Tons of crude oil or condensate or any liquid
mt	Million Tons of crude oil or condensate or any liquid
MW	Mega Watt
TW	Thousand MW
MWh	Mega Watt hour
TWh	Terra Watt hour
CHPP	Combined Heat Power Plant (in Russian TES or Heat and Electricity Station)
RUR	Rubles (or roubles) – Russian national currency
UGS	Underground Gas Storage

The report contains up-to-date information on all key aspects of LPG industry in Russia. The report delivers numerical information in easy to read and logical format. All key issues pertaining to LPG are covered in subsequent chapters.

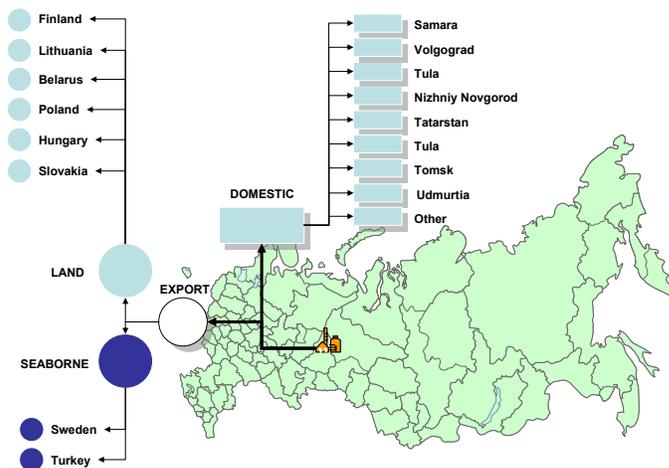

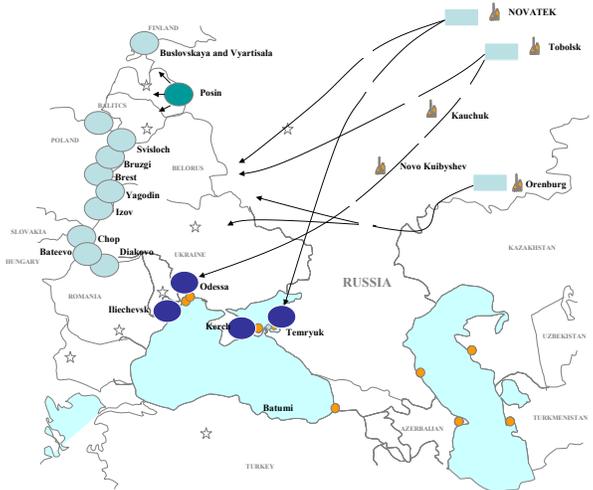

The report starts with analysis of LPG resource base and its utilization. The report provides historical data on crude oil, natural gas and NGL production. Refining throughput data and LPG content in the product mix is presented.

The report then delivers LPG historical and monthly production in 2008-2011 by type of producer. Regional production profiles are presented in easy to follow format. All facilities are mapped.

Export and domestic LPG flows for 2009-2011 are examined. Domestic LPG market segments are reviewed. The report contains data on deliveries to petrochemical plants and to regional markets in 2009. Petrochemical plants LPG sourcing is provided in tables.

Export to individual countries and type of LPG exported is included in the report. Export drivers are identified.

LPG production forecasts presents a view on the most likely development in LPG generating industries. The forecast include regional breakdown of expected LPG feedstock production.

Details of LPG logistics for key production facilities are included in producer profiles. The profiles also contain basic information on a facility LPG production in the last five years, LPG fraction mix and monthly output by fraction for the last 48 month. Latest financial data, where available, is also presented in profiles.

REnergyCO is confident that the report will be an excellent source of information for all LPG industry participants.
